Happy, Sour, Integrity, Dependence.

3. Write a report on a road accident you have seen.

Or

Write a report on the celebration of Women's Day in your college.

4. Write the Precis of the following passage—
The evidence couldn't be more surprising—the Gangotri glacier is receding at an astonishing 23 metres per year. In fact, all the Himalayan glaciers are the fastest receding in the world. This raises the dangers of widespread flooding and eventually, when water levels decline, the prospect of massive environmental and economic problems for the people. Environmentalists have been crying about these frightening scenarios for years. Ground realities show that across the world, global warming is causing all manner of freak climatic phenomena. The more

P.T.O.

significant are the El Nino effect in which the warming of ocean currents has led to the decline of certain aquatic species. Globally, temperatures have been steadily increasing wiping out many species of flora and fauna.

5. Compose an e-mail message to your friend for attending your birthday.

Or

Make a list of important do's and don'ts while drafting a resume.
